Bangalore, Karnatka| kushagramishra401@gmail.com

I am an accomplished Flutter Developer with an MCA degree, skilled in creating cross-platform mobile applications. My expertise includes designing, building, and maintaining efficient, high-quality code. Passionate about innovative solutions and continuous learning in mobile app development.

PROJECTS

YES-BID

Developed a Flutter-based online bidding application that allows users to sell products through a bidding process. Implemented features for sellers to accept or reject offers based on bid prices, enhancing user engagement and transaction efficiency. Utilized a robust backend to manage user data, bids, and transactions seamlessly

COOKIFY

Developed an application that fetches data from an API to display 20 million recipes, featuring an intuitive and visually appealing user interface

SHOUT-US

Currently collaborating with my team on 'Shout-us,' an e-commerce app designed to provide services similar to UrbanClap, enhancing user experience through a range of functionalities.

EDUCATION

MASTER IN COMPUTER APPLICATION

Galgotias University 2022-24

- CGPA 7.88
